REGULAR LINE OF NEW YORK PACKETS,
TO SAIL EVERY SATURDAY.

Schr. POST-BOY, J. Osborn, master.
LITTLE WILLIAM, L. Evans, do.
MARTHA, Z. Denison, do.
ONTARIO, S. Griffing, do.
PARAGON, L. Thayer, do.
MARY ANN, R. L. Wood, do.

The proprietors of this line of packets, at the urgent solicitations of their customers, and to insure a more certain and speedy conveyance for goods and passengers, between Baltimore and New-York, have determined to dispatch one of the above vessels from each place on Saturday, in every week throughout the year, and flatter themselves that this arrangement will secure to them the patronage of shippers generally. The vessels composing this line, are all of the first rate, commanded by experienced coasters, who have been long acquainted in the trade, and may be insured at the lowest rates: the captains standing their own pilots.

Merchandize from any part of the United States will be received and forwarded by this line free of charge, and the expenses, if required, will be paid and collected with the freight at its port of destination. Shippers may depend on the strictest punctuality in the sailing of these vessels on the day appointed, with what freight may offer. For freight or passage apply to

Patent Bedsteads.

The subscriber having obtained a Patent for a Bedstead on a new construction, invites all those who may be disposed to patronize him to call and see the same at the

CORNER OF HOWARD AND SARATOGA STS.

(Directly opposite the Western Hotel.)

Its advantages consist in its being put up or taken down with the utmost expedition. It is entirely destitute of pins, cords or screws; the sinkingbottom is fastened by dovetailed rabbit, which can be taken off, washed at leisure, and replaced without any labor and the greater the weight upon the Bedstead, the more firm and compact it is made. All who have seen this invention have honored it with their unqualified approbation as the most secure from vermin; and as combining all the advantages of the ordinary Bedstead with the still further advantage of being the most expeditiously put up and taken down; as this may be done in three minutes, in case of fire, &c. The public are again invited to call and examine for themselves; if it does not suit the purchaser, the money will be returned and the Bedstead received again, if application be made in a reasonable time.

DANIEL POWLES.

He also has constantly on hand Cabinet Furniture of every description, which he will dispense of on reasonable terms, warranted to be good.

RICHARD WILMOTH HALL, M.D.
Church St. January, 2, 1821.

This is to certify that Mr. Samuel Taylor has been in the practice of electrifying patients for me, for at least 10 or 12 years last; many of whom were greatly benefited by his judicious application of electricity. And from my knowledge of his skill and ability in the management of it, I can, with great confidence, recommend him as a proper person, to be employed, for that purpose.

W. H. CLENDINEN.

The 3rd and 4th sections of the law prohibits a justice of the peace from granting process of a civil nature to any constable; it can only be done on "application of the plaintiff or plaintiffs in person, or of his, her, or their agent, or attorney thereunto authorised other than a constable," it is deemed advisable to call the attention of the public to this important alteration—and as the number of justices of the peace is now limited to thirty six, it is also important that the places at which they transact business should be generally known.
